EDUCATION

Graphic Era Deemed to be University — Dehradun, India Bachelor of Technology (B.Tech) in Computer Science and Engineering with specialization in AI . Expected Graduation: Dec 2028

- Current CGPA: 8.2 / 10
- Relevant Coursework: Object-Oriented Programming (OOPs) in Java, Design and Analysis of Algorithms (DAA), Data Structures, Database Management Systems (DBMS), Advanced Computer Architecture.

TECHNICAL SKILLS

- Programming Languages: Java (Core & Advanced OOPs), C++, C, Python
- Databases & Frameworks: MySQL, Java Swing, AWT
- Developer Tools & Tech: Git, GitHub, VS Code, JDBC
- Certifications:
 - NPTEL: Programming in Java
 - IBM RAG and Agentic AI Professional Certificate (Coursera, 2026)
 - NPTEL: Blockchain and its Applications
 - NPTEL: Advanced Computer Architecture

ACADEMIC PROJECTS

Bank Management System

Java & Swing Developer | January 2026 – June 2026

- Designed and developed a desktop-based banking application leveraging Java and Java Swing to deliver an intuitive Graphical User Interface (GUI).
- Implemented core banking functionalities including account creation, secure login verification, balance inquiries, deposits, and withdrawals.
- Utilized robust Object-Oriented Programming (OOPs) design patterns to separate business logic from the presentation layer, ensuring high code maintainability.
- Integrated a relational MySQL database via JDBC to handle secure data persistence, relational query execution, transaction logging, and user record management.

- Successfully presented this system during the university's rigorous Phase-3 Project-Based Learning (PBL) evaluation cycle in June 2026.

Agentic AI & RAG Deployment

Independent / Certificate Capstone Project | May 2026 – July 2026

- Built and deployed an intelligent system utilizing Retrieval-Augmented Generation (RAG) to dynamically parse external data sources.
- Developed conversational pipelines using Python and vector databases as part of hands-on Agentic AI frameworks.
- Completed testing and full technical documentation for project deployment as of July 2026.

AWARDS & ACHIEVEMENTS

- NPTEL Certification in Java: Certified in advanced Java programming paradigms, mastering inheritance, polymorphism, and memory management.
- Campus Engagement: Contributed as an active participant and volunteer during major university technical and cultural events, including GRAFEST
